

Aged Care Clinical Navigation & Support Services

As a Registered Nurse and Clinical Consultant, I offer private, specialized navigation that differs from government-funded advocacy services. While advocacy groups focus on your rights and complaint resolution, my service provides clinical expertise to ensure your care needs—such as cognition, mobility, and medical risk—are accurately captured, documented, and met by the system.

Pricing and Service Tiers

Service Package	Fee
Initial Consultation (30 minutes) Assessment of needs and guidance on the best path forward.	\$0
Aged Care Application Support: My Aged Care registration and initial documentation.	\$200
Clinical Assessment Support Clinical pre-review and aged care assessment attendance.	\$350
Post-Assessment Outcome and Navigation Review: funding, Support at Home mapping, interim planning, and appeals support.	\$450
Comprehensive Package: The Full Clinical Journey: Includes all three services listed above. A dedicated clinical partner for the entire application and assessment process (Save \$100).	\$900

Service Details

1. Aged Care Application Support

I assist you with the essential administration: setting up your My Aged Care portal, navigating Services Australia and Department of Veterans' Affairs income and asset documentation, and completing registration forms to avoid common delays.

2. Clinical Assessment Support (Registered Nurse-Led)

Before your aged care assessment, I perform a thorough clinical review. I document your functional baseline—including cognitive status, mobility, medication management, and falls risk—to provide a formal clinical summary for the government assessor. I attend the assessment with you to ensure these clinical needs are clearly articulated and documented.

3. Post-Assessment Outcome and Navigation

Once the outcome arrives, I help you decode the funding codes and support plans. I bridge gaps by coordinating with entry-level home support providers, integrating care through General Practitioner management plans, and advising on formal review or appeal processes if the allocated support does not meet your clinical requirements.

Fees are transparent and flat-rate to provide financial certainty. All services are provided as a private, independent consultant. All guidance is based on personal circumstances at the time of the initial review and is subject to change.
